To Whom It May Concern,

It has been an extreme pleasure working with Susan Engelhardt and the Team at Rutgers Center for Innovative Ventures of Emerging Technologies (CIVET). From product concept through company launch, CIVET has provided a wealth of assistance. This has ranged from education and training in the translational research process, to direct industrial mentoring through the ISB. These resources have helped tremendously in the filing of an SBIR, the development of a business plan and a related slide deck for business pitches, and key regulatory insight into the development of key components for FDA filing. This liaison with CIVET has been very fruitful and we look forward to future engagements with CIVET.

Sincerely,

A handwritten signature in black ink, appearing to read 'Tim Maguire II'.
